Dear Sir:

Submitted herewith on Form PTO-1449 is a listing of documents which came to applicant's attention within the past six weeks in the course of an investigation of delivery methods for the product of the present invention. A copy of each document is being submitted herewith to comply with the provisions of 37 C.F.R. Sections 1.97 and 1.98.

From the primary novelty perspective, it is not believed that the enclosed references are relevant to the patentability of multiple density absorbent components but since they deal with delivery methods for such products, they are presented for the Examiner's consideration, pursuant to 37 C.F.R. Sections 1.5.

The submission of any document herewith is not intended as an admission that such document constitutes prior art against the claims of the present patent application. Applicants do not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a prima facie prior art reference against the claims of the present patent application.

Applicants respectfully request that the listed documents be considered by the Examiner and formally be made of record in the present patent application, and that an initialed copy of Form PTO-1449 be returned in accordance with MPEP §609.

Respectfully submitted,

Paul E. Hodges
